

BP Oil ***Mt. Pleasant, SC***

SGM was hired to develop a revised exterior design to meet the Town of Mt. Pleasant's strict Design Review Board (DRB) ordinance while maintaining the prototypical plans. The project consists of four islands with sixteen pumps, 4,000 square foot convenient store, and touchless car wash. The exterior design features brick and wood shake walls with a standing seam metal roof. Of special importance, was the carefully designed canopy over the pumps on the street side. The site incorporated landscaping and a brick and wrought iron fence.

Owner: Barkley Fraser Company, Mt. Pleasant, SC

Project Size: 14,000 sq.ft. new construction

Project Budget: \$850,000

Contractor: Hill Construction Corporation, Mt. Pleasant, SC
